

REMARKS

Claim 32 has been amended to include the limitations also added to other claims in the case. Therefore, claim 32 should be allowable for the same reasons discussed in the previous response.

Claim 32 was rejected as anticipated over Kohno. However, Kohno does not teach the claimed configuration of bonding both dice to the same leadframe finger. Therefore, claim 32 patentably distinguishes over the art of record.

In view of these remarks, the application is now in condition for allowance and the Examiner's prompt action in accordance therewith is respectfully requested.

Respectfully submitted,
